## Day With the Bankers, the Merchants and the Brokers.

## rocess of Digestion

Very Perceptible, Especially in the High Priced Railroad Shares.

EW YORK, Oct. 22.-Speculation in stock market continued on much the with sales in the neighborhood of a a shares of the two hours of the ay segsion. A process of digestion very perceptible, especially in the a-priced standard railroad shares, and Paul then broke 114c below yesterday, ving the market a ragged appearance and the closing. Ontario & Western lest a point of yesterday's gain, her on account of speculative profitlevel covered by the contract for mater of control. On the other hand, enter of control. On the other hand, any aggressive atrength was shown by number of low-priced railroad stocks, the Fris the leader of the group.

Imaganated Copper made a brilliant transport of over four points to the high red of the year. There was large and stemmed buying of Rock Island, the ock rising about a point. United States seel preferred was unable to hold its one out advance, and the same was true of pursylvana, which came later into the prement. The irregular tone of the arket is indicated by a above movement.

systement. The irregular tone of the sarket is indicated by a above movesarket is indicated by a above movesent.

The bank statement showed a larger as in increase than was indicated by the 
irrency movement, the average system i computation thus working to correct 
of discrepancy in the other direction in 
it week's statement. The loan increase is 
less than H.00.000 was considered modsate in view of the activity of the specsation during the week. The net result 
the first recovery in the declining tenmoy of the surplus reserve since that 
soline set in from the high figure of 
187.500 on August 20. Total sales of 
mds, par value, \$1,625.000. The volume of dealings in stocks has 
sen this week to an average of more 
har a million and a half shares a day, 
and the question of the netive interest in 
ha market of a large following outside 
Wall street has become no longer dentable. As a normal response to this 
reciproment there has been a free disribution of holdings to the newcomers in 
ha market by the speculators who saw 
ittractive profits on the previous extenrerise. The market showed the effect 
it his realizing, and by midweck was 
objected to a sharp reaction in conseunce of the increasing burden of the 
silling and the formation of an influenall party among sold-out bulls who facred a reaction for the purpose of shakgreet and of affording an opportunity 
get back stocks at a profitable lower 
well of prices. The engerness of the 
althus demand restrained the reaction 
and the market continued to manifest a 
atong absorptive power.

the market continued to manifest a trong absorptive power.
There was nothing in the week's news to incorrage the rise in the market, and he good news of the week had little bearing on the specific movements of prices. In speculative enthusiasm ran high and is emotional element was prominent troughout as is usual in great speculate movements.

A deminant in the second control of the product of

rememout, as is usual in great speculaits movements.

A deminant influence was the fact that
many on call could be had at 2 per cent
it less, while time loans running well
to next year were obtainable at 3½ per
cent, a condition of the money market
sot known in the month of October in
ter York for many years past.
The strong return for the week of the
special bank of Germany and the relaxtion in consequence of the foreign dissints relieved the apprehension that had
cen caused by the previous week's adince in the German banks' discount rate
at obstacles would be offered to the
sawing of gold from abroad in case of
set by New York.

Lallroad officials from all sections of
a country were united in reporting a
table expansion of the movement of
trehandles of all kinds and a promise
an early resumption of the

apaisson of the movement of the of all kinds and a promise the resumption of the grain, with the movement of a new of improvement in net earnings ds for August and September ed out, and the fact that the ent was due to retrenchment in expenses up to that point was the decided rise in gross cornhet two weeks of October thus ed.

An excited demand for pig Iron, the shring of large orders for railroad equippent and the enormous export demand for copper pointed to the weifaire of the useful industries. News of a less definite lind played a part in the violent increments in special stocks. Ontario & Westman was said to have passed to the control of the New York & New Haven. Of great influence were the daily and south rismors of opening of speculative campaigns in one and another stock by well-known operators, accompanied by definited assertions of the extent to which he rise in the price was to be carried. The credence in such tips was fostered by the regularity with which some of them were accomplished, thus inciting the faith of skepteal speculators, who have been systanders, but attentive observors of the reliminary stages of the growing speculative excitement.

The bond market has been active and strong, but the chief attention was given to convertible and speculative bonds.

Inited States as have advanced in person on call during the week.

П	ing the week, the offic		
	n market and 20 202 200 mobile	and the first on the state of the pres-	The Property of the

a gain of \$3,555,800, while the estimates indicated a loss of \$255,300.

"Inasmuch as in the previous week
there was guite as remarkable a discrepancy between the officially reported and
the estimated movement of cash—the former showing a gain of \$31,400, while the
latter recorded an increase of \$5,375,900—it
seems probable that the discrepancy last
week was due to the adjustment of averages in the cash item, a large part of the
gain in the previous week, as shown by
the estimates, being brought over into
last week.

"It also appears likely that the remarknbly large increase last week was due to
unrecorded movements of money hitherto
from the interior, or the absence of withdrawais of funds by institutions in neighboring cities because of the opportunities
that were offered patrons of these banks
for speculation in the booming stock
market.

"Deposits were increased last week by
\$6,550000, as the result of which the re-

market.

"Deposits were increased last week by \$5,559.000, as the result of which the required reserve was augmented \$1,529.550. Deducting this sum from the gain of \$3,500 cash, as above, left \$1,896,650 as the increase in surplus reserves to \$17,853,925, against \$17,844,450 a year ago. Computed upon the basis of deposits, less those of \$23,322,200 public funds, the surplus is \$23,684,475.

"Loans were expanded \$3,917,000, probably reflecting borrowing incident to the stock speculation. The statement made a "bad" proof, the sum of the increase in loans and of the gain in cash being \$833,500 greater than the increase in deposits."

NEW YORK, Oct. 22—Bar sliver, 584c; Mexican dollars, 464c. SAN FRANCISCO Oct. 22—Sliver bars, 584c; Mexican dollars, 469464c; drafts, sight, 74c; telegraph, 10c.

Money and Exchange.

NEW YORK, Oct. 22—Money on call nominal; no loans; time loans steady; 60 days, 5 per cent; 90 days and six months, 3½65%. Prime mercantile paper, 495 per cent. Sterling exchange firm, with actual business in bankers' bills at 43.85 for demand and at 43.87.5 for 90-day bills; posted rates, 14.84½64.88½ and 54.87; commercial bills, 34.8394.83½.

New York Metals.

New York Metals.

NEW YORK, Oct 22—There was only a small volume of business transacted in the various metals today, but with the exception of tin, which ruled easy, a firm tone ruled. Yesterday's iron prices were firmly maintained and there was a continued good inquiry for this metal.

Copper was quiet: lake, \$12.124,003.57%; electrolytic, \$13.00912.25; casting, \$12.874,00 li.00.

Tin, \$28.624,628.95, Speiter, \$3.2565.30, Lead, \$1.204,4374.

## in Feed Market

Hay, Wheat and Flour Are Now Within Reach of Consumers.

Few new offerings are found on the market, and there is very little change in prices generally. Hay, grain and straw have taken a decided drop, baled hay being cheaper by 50 cents. Wheat, bran and shorts have lost 5 cents per bushel, and 10 cents is knocked off corn, cracked corn, relied barley, straight grade flour and high patent flour per hundredweight.

patent flour per hundredweight.

One box of pomegranites has made its appearance at £2 a box, but there is very little demand for this fruit in Sait Lake, as it is far from being a favorite. One small box of pomegranites to supply the whole of Sait Lake is proof that this population has not learned to eat a fruit which is considered delicious where it is grown.

grown.

That Thanksgiving and cold weather draw near is told by the fragrant mincement which is on the market for the first time this year. There are two grades of it, selling at 3½ cents and 3½ cents. The turkeys, which have been here some days, are still searce.

Grain and Provisions.

Grain and Provisions.

CHICAGO, Oct. 22.—Following a quick advance on covering by shorts, the wheat market t day made as sudden a decline on heavy liquidation. At the close both December and May wheat were down \$4c. Corn and oats are each off \$4c. Provisions show almost no change.

Under the influence of indifferent cables the wheat market opened with a somewhat easier feeling. December being a shade higher to \$40\forall 15\forall 6 million as showed higher to \$40\forall 6 million as showed higher to \$40\forall 6 million as one was a shade higher to \$40\forall 6 million as showed higher to \$40\forall 6 million as one was shown to be soon became active bidders for the December option. Not enough wheat was offered to supply the demand, and in consequence prices made a rapid advance. December quickly rising to \$1.15\forall 8 mantime May sold up to \$1.15\forall 8. The continued buillishness of the cash situation was the chief underlying factor affecting early trading.

On the advance there was heavy sell-

threed bullishness of the cash situation was the chief underlying factor affecting early trading.

On the advance there was heavy selling by a loader of the bull crowd, conservative estimates placing his total sales at nearly a million bushels, most of which was May. Alarmed by the persistent selling pit traders changed front and sold freely. Prices declined as rapidly as they had previously risen. Houses with Northwestern connections were conspicuous on the selling side. Weakness at Minneapolis had considerable influence licre late in the day. Trading, however, was relatively quiet during the last half-hour. The market closed practically at the lowest point of the day. After selling at \$1.15, December closed at \$1.15½, a net loss of %c. Final quotations on Maywers \$1.32%.

Firm cables and a good cash demand caused some degree of strength in cornearly in the session. December opened a shade to \$4.6.45c lower at \$4.54.646c, sold off to \$55c and closed at \$3.54.65c. Local receipts were 112 cars, with 6 of contract grade.

Little Interest was manifested in oats,

ing unchanged to 4c lower at 294.8254c, December sold off to 284c and closed at the low point. Local receipts were 113

cars.

The early provision market was strong on buying for outsiders and by local shorts. At the close January pork was unchanged at \$12.25. Lard was up 2½556 at \$7.27½. Ribs were up a shade at \$6.55. KANGE OF THE LEADING FUTURES. Articles. Open. High. Low. Closs. Wheat, No. 2-

NOTICE TO WATER USERS.

State Engineer's Office, Sait Lake City, Utah, October 15, 1804

Notice is hereby given that the Continental Mines and Smelling Corporation by its manager, Henry M. Crowther, whose postoffice address is 469 Dooly Block, Sait Lake City, Utah, has made application in accordance with the requirements of Chapter 100 of the Session Laws of Utah, 1503, to appropriate twenty (20) second-feet of the water flowing in Little Cottonwood creek, Sait Lake county, Utah, Said water to be diverted from the main stream at a point about five thousand eight hundred (5800) feet above the intake of the Columbus Consolidated Mining company's pipe line, from where the water will be conveyed through a flumo and pipe for a distance of about 5000 feet and there be used for the development of power, which is to be used for propelling machinery at the Continental Alta Mill in the Little Cottonwood mining district. After having been so diverted and used the water will be returned to the natural channel of Little Cottonwood creek at a point about 500 feet above the intake of the Columbus Consolidated company's power plant pipe line.

All protests against the granting of said. State Engineer's Office, Sait Lake City,

bus Consolidated company's power plant pipe line.

All protests against the granting of said application, stating the reasons therefor must be made by affidavit and filed in this office within thirty (3) days after the completion of the publication of this notice.

A. F. DOREMUS,

State Engineer.

Date of first publication, Oct. 18, date of completion of publication, Nov. 17.
